THE LATE COL. DEBOW .- The remains of the lamented Col. DeBow arrived in the city yesterday evening on the Louisville train. The funeral services will take place this morning at Christ Church.

THE only place to get a superior quality of custom-made boots and shoes, is at the Nashville Shoe Store, No.74 North College st., chear for cash. M. MORGANSTERN.

WITHIN the last few days, a couple of sharpers, after boarding about a week at the City Hotel, decamped without settling up their board bitl. Their good looks and rather genteel manners went a great way in procuring them rooms, although without the nseal accompaniment of baggage. Hotel keepers would do well to be on the lookout for such scoundrels.

THE revivals still continues at the First Comberland Presbyterian, and the McKendree Methodist churches, with the most gratifying results. In the former church, Rev. Mr. Davis, of Memphis, preaches every night to large audiences.

The undersigned having just returned from the East, takes pleasure to inform the public in general that he has replenished his store with the most carefully selected stock of custom-made boots and shoes which he will sell low for cash-M. MORGANSTERN,

EVANS, FITE & Co., have received their stock of dry goods, boots and shoes, notions etc., and are now prepared for the spring trade. Their goods were bought upon very advantageous terms, and they are, therefore prepared to offer great inducements to country merchants. It will be seen from their advertisement in this morning's UNION AND DISPATCH, that their stock is complete in every department, and we are are buyers will promote their own interests by calling upon this popular house. They are reliable business men, and know fully the demands of the section which depends upon Nashville for a market, and have prepared themselves for this trade,

ying on its surface the debris of forest and R. Hill. tonds through the Northern part of the city. The danger resulting from the preinconsiderable. Already we have to report very serious havor on the Chattanooga railroad. The immense trestle work over Running Water, near. Whitesides, was yesterday forenoon partially swept away. It is stated that at least one hundred feet of the structure was carried off by the freshet, and that the rapidly increasing floods would be very likely to demolish the greater part of what remained. When it is borne in mind the vast length and depth of this trestle-work-it is about one hundred feet high, and ten times that length-it may be magined the time it will take to replace

Chattanooga cannot be established inside of two weeks. Beside the Running Water trestle work wo other bridges, one at the foot of Lookout Mountain, and the other somewhere in the same neighborhood, have been washed rond, has already sent every available man repairs. As may naturally be supposed, a great deal of inconvenience to merchants will be experienced by the break in railway communication; but the greatest sufferers will be the destitute poor of the South. Corn has been pouring into Nashville in vast quantities of late, for shipment further South. Our city must now become a regular store-house for this now much-needed commodity, while the | we deeply sympathize with them in the destitute poor in Alabama and Georgia will have to suffer still greater privation than they have been enduring. As the Running Water bridge is the other side of Stevenson, the break equally affects the Memphis and Charleston railroad, as i does the Nashville and Chattanooga road Both roads join at Stevenson, and that

point must remain a terminus for each for ome little time to come. A considerable portion of North Nash ville is submerged. The low ground several acres in extent, immediately North of the railroad trestle-work, is completely submerged. A number of straggling, one story houses, very recently occupied, could barely exhibit their roofs yesterday even ing, all else being under water. As the river was rising last night at the rate of an inch and a half an hour, and the rain still continued to pour down, there is no telling the desolution and damage which

may yet result from the flood. On the Nashville and Decatur railroad we heard of three bridges being washed away. The regular passenger train did not leave yesterday evening. It is quite probable that travel will be resumed or he road at a very early day.

AMUSEMENTS - THE ADELPHI -- MISS Laura Keene's benefit last night was really a rousing affair, and this, too, with the worst possible weather to contend against, rain above, and slush and mud beneath. Well, the fact is simply a very pleasing indication of the lady's popularity—well de-served as it certainly is. "The School for Scandal" was admirably produced, as has been almost everything brought out during Miss Keene's engagement.

ANOTHER BENEFIT-THE TENNESSEE BENEVOLENT ASSOCIATION. - The very an connecement that Miss Laura Keene has onsented to remain and devote one night to the benefit of our maimed Confederate soldiers, will at once call up visions of a theatre packed from pit to dome, and presentacks by the hundred to assist the crippled heroes. It was generous in Miss Keene to stay over for a day or two to lend her assistance and services in such a noble cause, and praise worthy in Manager Davis to entirely dis sense with the profits of the night in which the benefit comes off. It will be seen, from our advertising columns, that Friday (tomorrow) evening has been selected as the me, and the glorious comedy of "London surance" as the play for the occasion Let there be such a gathering as was never before seen inside the walls of Old Drury and let the hearts of the noble ladies whoutrol the Tennessee Benevolent Associaon, be made glad.

THE STREETS OF NEW YORK,-This ery popular play, which was received in its first presentation here with such lively opreciation, will be produced to-night by the stock company. Mr. J. C. Carroll will also appear in the drama, and give the audience a specimen of his heel and toe-

ALL QUIET AMONG THE FREEDMEN.-Hungry for an item yesterday afternoon we called upon General Carlin, to learn there was anything of special interest transpiring among the colored population. No. everything was perfectly screne and lovely. The darkies were, generally, at work, some of them making a right smart chance of wages; the juveniles were pegging away it their spellers and readers, while curlyheaded bables were being introduced into the world after a fashion to dispel the idea f an early annihilation of the colored race. All this was very good, but we wanted material for startling head-lines, and, of course, couldn't be satisfied with less. Would be not be so good as to inform us of outrages some sort; the whipping, shooting, or ill-treatment of some poor unprotected African within the range of his jurisdiction. No, the General was sorry-no, no, glad he couldn't accommodate us, but really matters were getting along so smoothly that material for a startling item was out of the question. He hoped we would take it in good part, something might turn up in the course of a month or so, and he would be sure to give us the benefit of it. With these soothing assurances, we had to make the best of the situation, and retired to bide

our time, like Micawber, and wait for some thing to turn up. Of course it must not be set down tha before 'Squire Wilkinson at 2) P. M. yes the necidents and criminal pecadifless J. F. The New York Post, of the afternoon of Essays of the Howard Association, on the Physi- | the 2d inst., reports a little more activity in log sal Errors, Abuses and Diseases induced by the loan market, but the supply of idle capmorance of Nature's Laws, in the first age of ital was abundant. The Post says: "The recent sudden decline in the amount of the balance at the Sub-Treasury attracts some attention. It is caused partly by the heavier disbursements of the closing month, but nore, if we are not misinformed, by the remitting to Washington of converted seventhirties and redeemed gold certificates, both of which classes of securities are counted as ash till the end of each month, when they are checked off the books here, to appear, we suppose, in some form or other in the the books of the Treasury, in Mr. Spinner's

office, at Washington." The New York Journal of Commerce, the afternoon of the 2d inst., says: "There is a more cheerful feeling in the maket to-day, but no revival of general trade There has not been a time for several years who all classes of business were so thoroughly with out life and spirit. Those who must meet the season's demand with an assortment of goo-pick up the uccessary variety in the smalle way possible, and thus there is a little movement but transactions are mostly limited to moderate quantities, and there is no disposition on the part of responsible parties to engage in specula tive purchases. Prices of desirable goods are of the whole well sustained; for others the tander cy is to lower rates. Capital is freely offered of

acceptable stock collaterals at 6 per cent., for call loam, and upon government securities at 5 per cent. First class compare all paper is readily placed at 7 per cent. per annum discount. The New York Tones of the 4th instant

The trade of the week past continued to show improvement in the dry goods line, domestic as well as foreign, and also a fair demand for general foreign merchandise. The export movement also improved to four millions in value for the week. The custom duties paid in were again large, and will probably so continue this week, if not through the new month. The demand for gold for this object, until near the close of the week, when shout \$1,50,000 of the 10-40 interest was disbursed, caused a decrease of \$1,800,000 in the specie deposits in bank. The greenbacks in reserve are about the same as last Monday. The county bank balances, and the course of currency in national bank and greenback notes, are now tending to New York, and as the time season advances toward the sammer months, this movement, in the absence of exceptional causes of trouble of a political or financial nature, will, as it did the same neason last year, lead to increased case and abundance of supply in the money market. Of foreign distarbance, there is, of course less probability than when the war in Germany and the panic in London were hanging over the gold and money market last spring.

RIVER NEWS

ARRIVED. March 6 .- Nashville, Cairo. Alert, up river. DEPARTED. J. H. Troyer, Evansville Louisa, Evansville. LEAVING TO-DAY. Nashville, Cairo.

The river was rising at this point las

evening at the rate of It inches an hour, and more drift wood was running than at any time this rise. Steambouts were within forty feet of the stores on Front street, and a rise of 94 feet more would bring the water into the stores. The weather moderated Tuesday night, and heavy rains again fell, continuing the greater part of the day yesterday. This has put a different complexion on the state Union and Planters' bank notes were not of affairs, and the prospect now is for an in so much demand, though rates were un- old-fashioned flood. Some of our merchants on Broad and Front streets are preparing for it, and don't intend to be caught napping.

The Nashville came up yesterday from Nashville corporation checks were dull Cairo and is at the lower landing. She leaves at 4 P. M. to-day for Cairo. The little Alert came in from up river ports, bringing a lot of corn and other

freight. She reports the river still rising above. The Havana had not left Cincinnati 602. The following will show the total Monday. The Tempest will leave Louisville Sat-

> arday for this port. Captain Bateman abdicates, and Ike Shultz takes his place. At Memphis, on the 5th, the Mississippi had risen but one inch in twenty-four hours. At Cairo, the same date, the Ohio had

> fallen three inches. At Vicksburg, on the 2d, the Mississippi was rising and the weather was warm. Dispatches to St. Louis report the up iver open to Burlington, with the river here within two feet of high water mark. At St. Louis, on the 5th, the Mississipp

was slowly falling. The Anna White left St. Louis on the 4th r this port, and may be expected to-day. The Louisville Courier of yesterday says: The river was rising nearly if not quite n inch per hour, yesterday, and making apid encroachments upon the denizens along Water street, just at the very time that they had began to congratulate themselves that the waters had abuted and the wharf would be free of the tide. The weather, however providentially turned freezing cold on Monday night, and true to our predictions, we had a clear, cold day yesterday. All was bright and loving overhead, but extrenfely disagreeable and moist under foot, the sun's influence causing the snow to melt away quite fast. The thernometer ranged at thirty at noon, though freezing cold in the morning, with hopes of another freeze last night. A little hard

weather will materially check the threatening flood. The burometer yesterday indicated fair weather all day, but in the evening the mercury was slowly shrinking, indicating more falling weather, though we hope it will not rain to-day. A rain on the pres ent snow would make a disastrous overflow. The snow storm on Monday was considered as heavy as the great storm early last month, but the temperate weather made it more compact and heavy, though along the line of the Frankfort railroad it was fully ten inches deep. If it extended to the Kentucky river another freshet may be antici-

pated from that stream. At Cincinnati at noon yesterday the river had risen 25 inches in the previous 34 hours, with 47 feet water in the channel. At all points above it was also rising in about the same ratio, with cool weather

River and Weather. (By Telegraph.)

PARKERSBURG, March 6-10 A. M.-The river is 22 feet 6 inches in the channel and falling. The weather is cloudy with a prospect of rain. PORTSMOUTH, March 6 .- 10 A. M .- The river rose three inches lust night. Weather is cloudy and very cold. Mercury 35. RIPLEY, O., March 6-9 A. M.-The river rose about 7 inches last night and is still rising. The snow is falling slowly. Weather cold. PITTSBURG, March 6-11:30 A. M. The river is falling with 12 feet water. Mer-

CAIRO, March 6.—The steamer Armada sunk three miles below Caledonia at daylight this morning. No lives lost. The boat can be saved. For Cairo, St. Louis, Memphis and New Orleans.
